

HCV Genotyping Testing – Change in Performing Laboratory

Orderable: HC HCV GENOTYPING [LAB154156]

Effective Friday, September 6th, 2024, specimens with HCV Genotyping test orders will be sent out to LabCorp. The turnaround time for testing is 3 – 5 days after receipt by LabCorp. No changes will be made in the testing methodology.

Previous Performing Laboratory	Updated Performing Laboratory
VCU Health Molecular Diagnostics Lab	LabCorp
Turnaround time: 14 days	Turnaround time: 3 – 5 days

Explanation:

This assay, for in vitro use, is intended for the genotyping of hepatitis C virus (HCV) in human serum and plasma. This test allows genotyping of the six major HCV types and their most common subtypes.

The methodology will remain polymerase chain reaction (PCR) amplification and solid-phase electrochemical detection.
