“Prolactin: The seminal hormone of lactogenesis and its role in the pathogenesis of breast cancer”

Charles Clevenger, MD, PhD

Department Chair
Carolyn Wingate Hyde Endowed Chair in Cancer Research
Department of Pathology
Virginia Commonwealth University School of Medicine

At the conclusion of this activity, the participant will be able to:

1. Demonstrate the function of prolactin and molecular mechanisms
2. Relate that the prolactin receptor intermediate isoform is oncogenic in mammary epithelium
3. Demonstrate that Stat5/HDAC6/HMGN2 is involved in a dynamic promoter/enhancer environment in breast cancer

Accreditation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.

Credit Designation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System designates this live activity for a maximum of 1.00 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
