

"Validation of a long-read sequencing assay for carrier screening and understanding the clinical significance of the 5T variant in suspected cystic fibrosis cases"

Kendall Martin, PhD

Laboratory Genetics and Genomics Fellow
Department of Pathology
Virginia Commonwealth University
School of Medicine

At the conclusion of this activity, the participant will be able to:

1. Understand the importance of carrier screening for genetic disorders
2. Learn about long-read sequencing as a clinical testing methodology
3. Review the clinical phenotype associated with the 5T variant in cystic fibrosis cases

In support of improving patient care, VCU Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Accreditation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.

Credit Designation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System designates this live activity for a maximum of **1.00 AMA PRA Category 1 Credit(s)™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
