

"The Development of a Dual Color Multiplex Stain for the Diagnosis of Spindle Cell Lesions in the Age of Molecular Diagnostics"

Daniel Neal, DO

PGY4

Edward Via College of Osteopathic Medicine
Department of Pathology
Virginia Commonwealth University,

At the conclusion of this activity, the participant will be able to:

1. Outline clinical scenarios in which tissue preservation is essential
2. Summarize the broad differential pertaining to spindle cell lesions from core needle biopsy and small surgical biopsy specimens
3. Examine the use of the STAT6/MUC4 dual stain in working up spindle cell lesions from various anatomic sites

In support of improving patient care, VCU Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Accreditation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.

Credit Designation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System designates this live activity for a maximum of **1.00 AMA PRA Category 1 Credit(s)**™. **Physicians should claim only the credit commensurate with the extent of their participation in the activity.**
