“An Institutional-based Assessment of Molecular Send Out Testing for Indeterminate Thyroid Fine Needle Aspirations”

Daniel Neal, DO
Cytopathology Fellow
Department of Pathology
Virginia Commonwealth University School of Medicine

At the conclusion of this activity, the participant will be able to:

1. Provide an overview of the indeterminate Bethesda thyroid categories
2. Explain the role of molecular send out testing for thyroid cases using ThyGeNEXT/ThyraMIR
3. Show institutional-based data and notable trends
