

“Unlocking the Future of Precision Oncology: Integrating Digital Pathology and Molecular Profiling to Improve Patient Outcomes and Drive Research Advancement”

Matthew Oberley, MD, PhD

Senior Vice President
Chief Clinical Officer
Pathologist-in-Chief
Caris Life Sciences

At the conclusion of this activity, the participant will be able to:

1. Update understanding of biomarker testing in oncology
- 2.. Expand knowledge of AI applications in molecular and digital pathology
3. Synthesize research opportunities using molecular data, digital images, and clinical outcomes data
