

VCU Pathology Grand Rounds

“The PI 3-Kinase and AKT Signaling Pathway in Biology and Disease: From Discovery to Therapeutics”

Alex Toker, Ph.D.

Professor of Pathology, Harvard Medical School
Chief, Division of Signal Transduction
Associate Director, Cancer Research Institute
Beth Israel Deaconess Medical Center,
Investigator, Ludwig Center at Harvard

At the conclusion of this activity, the participant will be able to:

1. Understand the primary mechanisms that control PI3-kinase and AKT signaling in cancer, at the genetic level
2. Learn about the current therapeutic opportunities and drugs used to target PI3K and AKT in the clinic
3. Understand the challenges and limitations of targeting the PI3K/AKT/MTOR pathway in cancer

In support of improving patient care, VCU Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Accreditation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.

Credit Designation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System designates this live activity for a maximum of **1.00 AMA PRA Category 1 Credit(s)™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
