"AI Fluency in the Era of Digital & AI Pathology: Matching Machine Learning Methods to Clinical and Precision Medicine Applications"

Eric Walk MD FCAP

Chief Medical Officer
PathAI & Member
CAP Digital & Computational
Pathology Committee

At the conclusion of this activity, the participant will be able to:

1. Describe current AI/ML methods as they pertain to histopathology, including level of supervision, training and data requirements, pros & cons
2..Apply AI/ML methods to specific application use cases in pathology practice and precision medicine, with specific examples from the latest published literature
3. Recognize future trends in pathology AI/ML including the development and potential use of large language models (LLMs) and visual language models
