“Plasma Cell Enrichment Enhances Cytogenetic Analysis of Plasma Cell Neoplasms”

Hannah Wollenzien, PhD
Laboratory Genetics and Genomics Fellow
Department of Pathology
Virginia Commonwealth University
School of Medicine

At the conclusion of this activity, the participant will be able to:

1. Define relevant cytogenetic abnormalities in plasma cell neoplasms and importance in risk stratification
2. Understand the challenges of performing cytogenetic analysis on plasma cell neoplasms and mechanisms of plasma cell enrichment
3. Discuss the practical implications of cytogenetic findings after plasma cell enrichment in patient management

Accreditation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.
