Mechanism of early dissemination, cancer cell dormancy and metastasis

Julio Aguirre-Ghiso, PhD
Professor, Hematology and Oncology
Departments of Medicine, Otolaryngology and Oncological Sciences
Research Leader Metastasis Treatment Center
Cancer Mechanisms Program Co-Leader
NCI-Designated Tisch Cancer Institute at Mount Sinai
Director of Head and Neck Cancer Basic Research
Departments of Otolaryngology
Icahn School of Medicine at Mount Sinai

Educational Objectives
At the conclusion of this activity, the learner should better be able to:
1. Understand the concepts and process of early dissemination and its potential implications in cancer progression
2. Understand the concept and mechanism of disseminated cancer cell dormancy and its role in the metastatic cascade

Accreditation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.

Credit Designation: VCU Health Continuing Medical Education of Virginia Commonwealth University Health System designates this live activity for a maximum of 1.00 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
