Colorectal Cancer and Lynch Syndrome Screening

Wendy L. Frankel, MD
Kurtz Chair and Distinguished Professor
Chair, Department of Pathology
Director of GI/Liver Pathology Fellowship
The Ohio State University Wexner Medical Center

At the conclusion of this activity, the participant will be able to:

1. Discuss colorectal cancer pathways and the importance of microsatellite instability.
2. Understand the interpretation, reporting and pitfalls in immunohistochemistry for the mismatch repair proteins.
3. Review the clinical experience at OSUWMC and how screening for Lynch syndrome continues to evolve.
