Renal Medullary Carcinoma (RMC) and Renal Cell Carcinoma Unclassified with Medullary Phenotype (RCCU-MP): Findings in 15 Cytologic Samples

Elizabeth Martin, MD

Cytopathology Fellow
Virginia Commonwealth University Health System

At the conclusion of this activity, the participant will be able to:

1. To review the histologic, cytologic and molecular features of renal medullary carcinoma (RMC).
2. To contrast this to the recently described renal cell carcinoma unclassified with medullary phenotype (RCCU-MP), with particular emphasis on the cytologic findings.
3. To briefly review the differential diagnosis and specific diagnostic challenges of work-up of a RMC or RCCU-MP.
