Year in Review: Interesting Bone and Soft Tissue Cytology Cases from 2017-18

Amanda Gohlke, MD
Cytopathology Fellow
Virginia Commonwealth University Health System

At the conclusion of this activity, the participant will be able to:

1. Describe the cytology and corresponding histology of select bone and soft tissue lesions.
2. Categorize the differential diagnosis of bone and soft tissue lesions in cytology and small biopsy specimens.
3. Review ancillary tests that aid in diagnosis of bone and soft tissue lesions.
